ROYOMARTIN 3

RoyoMartin's Eclipse™ Reflective Housewrap saves builders both time and money. As the only product of its kind approved to replace traditional house wrap, this OSB panel with pre-applied radiant barrier foil serves as a superior thermo/vapor sidewall system when used with approved reflective tape. Eclipse™ Reflective Housewrap is offered in 8-foot and extended lengths and has a Class "B" fire rating, further enhancing its performance capabilities.
